Dear Cleveland Family,

We appreciate the outpouring of love and support for our children following last night's incident. All students and staff are safe and guardians of children have been notified. I urge you to reach out to the CAPS office and the Aldermann's office and request a plan of action.

Our teams have been checking in with teachers and children all afternoon and all students are in a good place. If your child brings up any questions or concerns this evening, please utilize the following resources that are attached at your discretion. If you feel your child needs further support, please email me at ddward@cps.edu to schedule a follow up session with our counselor or case manager.

Sincerely,

D. Ward
